

PROF. JENNY GEORGE

We wish to record our appreciation to Professor Jenny George for her service to the Lundy Field Society.

After she had contributed a number of research papers to the Annual Report, and had served on the Committee, Jenny undertook the post of Chairman in 1988. For fourteen years she has fulfilled this office, and has worked to sustain the Society's standards. The high point of her term of office was the publication of *Island Studies*, and the week long celebration on Lundy of the Society's 50th Anniversary in 1996.

Recently Jenny has been promoted to Provost of one of the four campuses of the University of Westminster, a post of increased responsibility that has prompted her regretful resignation as our Chairman.

On behalf of all the members, the Committee presented Jenny with two framed photographs of Lundy with our thanks, and our appreciation of her long service to the Society.
