NEWSLETTER

NUMBER 7.

JUNE 1978.

MARINE WARDEN APPOINTED.

A Marine Warden has been appointed to Lundy, and Nigel Thomas, the successful applicant travelled to the island on the Field Society's Excursion on Saturday June 3rd.

He will be on the island for the entire summer season, and apart from carrying out a programme of scientific work will be able to supervise and advise on the activities of the many divers who frequent the island's waters during the summer.

SUCCESSFUL EXCURSION

The Night Annual Excursion held by the Society on June 3rd proved as successful as those of previous years. The boat was virtually full, the weather for a change was perfect, and the Treasurer should be able to announce useful profits which will be used as always to further studies and conservation activities on Lundy.

CONSERVATION PLAN.

Agreement is now near with the Landmark Trust over the final wording of the Conservation Plan. It is hoped that the agreed Plan will be published soon and form the basis thereafter of all field activities on the island.

AUTUMN COURSES

Vacancies still exist for the September courses organised by the Society on Lundy. Members and friends are invited to apply for this chance to spend an inexpensive week on Lundy, with or without expert supervision, subsidised by the LFS and offering the opportunity to see the autumn migration. Please contact Bob Britton at 40 Exeter Road, Exmouth, Devon, for full details.

MR GADE'S MEMOIRS

Now at the printers. This limited edition of 500 copies is expected to be available at the end of July at an estimated price of £11-£12. If you would like to receive full details & an order form please send your name and address to:

Mrs M.S. Langham, 17 Furze-field Road, Reigate, Surrey
(Members who have already given their names to Mrs Langham or to Mr Gade will automatically be sent an order form)
